BENEFIT TONIGHT

AT O. B. DANCE PAVILION
FOR HERO FUND

The greatly deserving San Diego drive for funds for the benefit of the families of U. S. naval men who died in the Point Honda disaster will close this Friday night with a benefit "Hero Fund" dance at Benough's Dance Pavilion which should be crowded to capacity.

At the "Lucky Suit" dance last Tuesday night, the free tailoring number was held by B. Kroenberg, of 529 Twentieth street, the winning number being 5049. Four tickets were called ahead of that number, but the holders not being present, they lost the chance of getting a free suit of clothes.

ANNUAL DESERT PLAY

COMING AT PALM SPRINGS

The third annual Desert Play will be given at Palm Springs on the afternoons of November 3rd and 4th. Garnet Holme, founder of the play, has decided upon Mary Austin's "Play Fire" for this year's production. It was with this play that the Desert Play was started. It is based on an old Indian legend of the discovery of the use of fire by man.

The play is given in a natural theater at the foot of Mt. San Jacinto, and is located just a mile from Palm Springs and is on Indian land. The play begins promptly at 3 o'clock and is over at sunset. There are paved roads leading to Palm Springs.

JUBILEE CELEBRATION

ORDER OF EASTERN STAR

Seventeen new chapters of the Order of Eastern Star in this state will be granted their official charters at the annual convention in San Francisco on October 16. The convention will continue for four days and all details are completed here for the convention and special jubilee celebration.

Many chapters throughout the state have notified headquarters that their local organizations will hold special 50 year after celebrations simultaneously with the convention in the northern city.

Delegates from 400 chapters will attend the convention and a varied entertainment program for delegates and visitors has been arranged, beginning with a grand ball on the opening night, while automobile trips, bay river excursions and other features will be included.

C. OF C. REGULAR MEETING

At the regular meeting of the O. B. chamber of commerce last Monday night, the most interesting business transacted was the report by Miss Kate Spanj and Mrs. A. M. Morgan of the Community Christmas Tree committee. The affair promises to eclipse the one held last year, if all beachites will co-operate.

Some discussion of lights, street improvements and the general betterment of the Beach was followed by suggestions as to the possibilities of securing a community house "made to order while you wait," referring to a large building moved to the beach early this week.

O. B. Library

The pupils of Ocean Beach are delighted with the new library rooms the added light and air and beautiful ocean view make this location a pleasure. We have more shelving room and have just received an interesting order of new books which is as follows: "Up and Coming," Bartley; "Charing Cross Mystery," Fletcher; "Unknown Quantity," Hopkins; "North of 36," Hough; "Comrades of the Rolling Ocean," Pani; "Hidden Road," Singmaster; "Gentle Julia," Tarkington; "The Rest," Terhune; "Mine with the Iron Door," Harold Bell Wright.

NEW KINDERGARTEN

SOON TO BE CONSTRUCTED
AT LOMA PORTAL

Plans have been prepared and contracts are being awarded for the construction of a new kindergarten at the Loma Portal public school. Requa and Jackson furnished the designs, which call for complete tile construction of a room capable of holding a quarter of a hundred pupils.

The new kindergarten addition comes at an opportune time, and the ordering of its building is largely due to Mrs. Rodgers of Loma Portal, who has been most commendably persistent in her efforts for procuring educational benefits in that splendid suburb.

"SAFETY" EDUCATION

TO BE PROMOTED BY
PUBLIC SCHOOL TEACHERS

Systematic class-room work in safety education for every child in the public schools, is to be pursued by the teachers in an effort to reduce the number of accidents to children. This will be done by the means of "safety slogans" class-room games, dramatization and debates.

Attention of the pupils is also called to the announcement of the highway educational board, which is offering some attractive prizes in its campaign. One contest invites children of the fifth, sixth, seventh and eighth grades under 14 years to write essays on "Highway Safety Habits I Should Learn," not to exceed 500 words.

DR. J. EDWARD CASTIEN

SPECIALIST IN EYE GLASSES
REMOVES TO B STREET

Following the trend of business in the downtown section of San Diego, where the newest Pantages theater is nearing completion, many merchants and professional men are locating in that busy neighborhood. Dr. J. Edward Castien is prominent among the number, having moved last Monday from his former offices in the Spreckels theater building to 533 B street, in the handsome new quarters occupied by the Bead Shop, between Fifth and Sixth streets, opposite the Commonwealth building.

Dr. Castien is a highly respected resident of Ocean Beach and in his profession as an expert oculist has won wide reputation for his wonderful "Prescription Glasses," now used by many men, women and children who readily testify to the efficiency of properly prescribed lenses.

With that remarkably thrilling picture, "The Shock," as the mid-week feature attraction, Manager Ericsson will very likely have good cause to display the S. R. O. sign at the Ocean Theater. It is heralded as the most wonderful production of its kind ever placed on the screen. The bookings for Saturday and Sunday are also magnets of the first water.

WATCHMAKER MUNROE

RETURNS TO BEACH

F. B. Munroe the expert watch and clock repairer, has returned to the Beach and is now permanently located at Froide's Foto Finishing Co., opposite the postoffice. He makes a specialty of ladies wrist watches and will also call at your home for any repairing you may have in his line.

HIGHLY COMMENDABLE CONTRIBUTIONS

WRITE BRIEFLY AND

SIGN YOUR NAME PLAINLY

TO ALL CONTRIBUTIONS

The many clever and commendable contributors to the School Composition columns of The Beach News are respectfully requested to confine their praiseworthy efforts within 300 to 500 words and to writing on one side of the paper only.

Be brief and inscribe your signature plainly. It is especially desirable to publish your name correctly and fancy signatures only serve to puzzle the printer.

SIGNATURES DESIRED

We would be pleased to obtain the name of the contributor of an interesting essay on "The Schools in Japan" received this week without a signature, and it is withheld until the author can be given due credit.

A similar oversight applies to "Riddles" from 2-B grade. Kindly send in your name.

SPORTS

By THERON CLINE, Grade 8-B

Last Friday the first baseball game of the season took place between Ocean Beach school and Roseville school. The players of the Beach team are very much obliged to Mr. L. A. Shaffer, of the Maine Garage, for letting us use his diamond, as the school diamond is in a very bad shape. On account of very fine pitching and fielding, we are glad to announce that the score was 25 to 3 in favor of the home team. The lineup of the Ocean Beach team follows: Harold Belmont, c. (manager); Walter Brenner, p; Theron Cline 1b, (captain); John Bryan, 2b; Rolly Fowler, 3b; Ray Davis, ss; Lamar Lee, lf; Lawrence Mack ("Bud" Shilton) cf; Lochiel Cameron, rf.

BE THRIFTY.

By ERNEST EARLY, Grade 7-B.

You should never waste time. When you are in school, after you

finish some lesson, don't just sit whispering or doing anything else you shouldn't do, but get out some books and study. You only have five hours of school a day at the best and you should make the most of them.

Most boys seem to depend on their fathers for money and every other little thing they want. If you saved all of your extra money, you could soon have a bank account. Another good thing is that when money is in the bank, it is always making more for you. The more you add to it the more it makes.

The wasted food of the United States would feed—if it were saved—many homeless people in foreign countries.

Clothes are wasted also. Many a boy has thrown away clothes that were old and afterward wished he had saved them. They come in handy in many ways—such as when you go on a small camping expedition you would not like to wear good clothes, because they are sure to get torn. So it is best to save some old clothes because if you haven't any you are sure to want them.

JUST ME.

HILMAR SEVERIN, 6th Grade

Say, children, look at me, Ain't I as smart as I can be? I can read, I can write, I sure think I am awful bright; I can talk, I can spell, I can do numbers very well.

You sure can't tell by their looks That they are good in books, But, boys and girls— I know I'm good in books, Though I may not be in looks. Now don't this sound pretty I think it's a regular ditty! (Listen)

Say, children, look at me, Ain't I as smart as I can be? You just look it up and see, Then take a good look at me; I'm sure you will agree, That I'm as smart as I can be.

Fountain pens for SCHOOL CHILDREN make ideal gifts. To be had at the Ocean Beach Pharmacy.—Adv.

SPECIAL PERIOD FOR

FIRE HAZARD DISCUSSION
IN PUBLIC SCHOOLS

The school teachers throughout San Diego have been requested by Superintendent H. C. Johnson to give a special period next week to a discussion of recent conflagrations, their causes and effects as a feature of fire prevention week. It is hoped that the children may be so impressed by the discussion that they will be careful with matches and fires.

SCHOOL SCRIBBLES

Wednesday was banner day for the school bank. There were 38 depositors and \$23.92 the amount deposited. The 1-B grade had the greatest number of depositors.

We are very sorry to lose Billy, Margaret and Teddy White, who have moved with their parents to Calexico.

We are glad to welcome James Oliver, who comes to us from Vancouver to the 2-B grade. also Gertrude Muller to the seventh grade.

The stoves in the domestic science room are being attached and the eighth grade girls hope to have the first lesson in cooking.

Mrs. Sallee, the kindergarten teacher, who has been ill for several days, will return to her class next Monday.

DEMISE OF INSPECTOR DRAPER

Walter S. Draper, husband of Mrs. Bertha R. Draper, passed away Sept. 30, after a few hours illness at his home on Front street in San Diego. Mr. Draper was well known in Ocean Beach, having officially inspected the electrical work of numerous buildings at the Beaches. He was the assistant electrical inspector of San Diego for many years. The funeral was held last Wednesday morning and interment took place in the Mausoleum in Greenwood Memorial park.

NEIGHBORHOOD HOUSE

TEAM SCHEDULED HERE

FOR NEXT SUNDAY

Fans from far and near may look forward to a real rattling good game of the national pastime next Sunday afternoon at the usual time and place. Manager L. A. Shaffer announces that the Ocean Beach bunch of victorious ball tossers are right on edge for a clash with a club worthy of their prowess. The Neighborhood House team is one of the best of a score or more of good clubs in the San Diego field and their contest next Sunday with the home talent promises to furnish some worth while sport.

CRACK BEACH TEAM

CONTINUES WINNING STREAK

Keeping up the good work of mowing down all opposing teams thus far, with only one exception, the high stepping Ocean Beach club defeated the famous "Henry" organization last Sunday afternoon by a score of 8 to 3. The game was witnessed by a large representative crowd of fans at the local grounds on De Foe street at Niagara avenue. The batteries were Ragsdale and Tishack for the home boys, and Malcolm and A. Knardt for the visitors. There was one error chalked up to each side. The Beach club got 14 hits and the Henry team half a dozen less. Four doubles were collected by the local aggregation, while their opponents scooped in the only triple of the day.

BRANCH BANK FOR

OCEAN BEACH AWAITS
SUPREME COURT DECISION

The establishment of a branch bank at Ocean Beach will be a most welcome reality soon, if the United States supreme court gives an affirmative decision in a case brought by the First National bank of St. Louis to determine whether national banks can establish branches.

The supreme court began its regular term last Monday, Oct. 1, with a crowded docket and the bank case is among a list of over 300 held over from the last session. During the recess some 200 or more cases were docketed, bringing the grand total in excess of half a thousand.

The big legal mill grinds somewhat slowly at times and there's no telling the exact time when an anxiously awaited decision will pop out of the hopper, so this beach community must be a bit patient yet awhile longer.

LA JOLLA FOOTBALLISTS

In the first game played by either team this season, last Wednesday afternoon on the Pacific Beach field, Coach Barker's Army and Navy Academy varsity football team defeated Coach Moore's La Jolla Junior high school eleven by a score of 44 to 0.

The Cadets showed consistent scoring ability, by scoring one touchdown in the opening quarter, and then adding more scores in each chapter.

The return of Scoutmaster Doan from his summer vacation will be joyfully welcomed by troop 29 Ocean Beach.

Plans are being made in San Diego to have an older scouts' camp here during the Christmas vacation, with representatives from all the city and county troops in attendance. The camp probably will be held at Fort Rosecrans. Eagle Scouts William Stillwell, Edwin Houser, Julian Negle, Donald Tibbits, Sydney Reppel and Edwin Rhodes attended the older scouts' camp in Santa Barbara last Friday Saturday and Sunday. More than 200 older scouts representing all parts of the state were present in the camp, and the program was in the hands of expert men who guided the boys in their discussions. Besides the regular camp programs the scouts held a parade and were entertained at a banquet.

FREAK TEMPLE IN MOSCOW

Cathedral of St. Basil Possesses an Amazing Variety of Towers That Are Unique.

The cathedral of St. Basil (also known as the Pokrovsky cathedral) in the Red square, Moscow, is one of the architectural freaks of the world on account of its towers, all differing from each other and representing in their variety of colors pineapples, melons and the like, says the Detroit News. It was begun in 1554 and was not completed till 1670. Plundered and desecrated by the French in 1812, it was restored in 1839-45.

The Uspensky cathedral, one of the sacred buildings in the Kremlin, Moscow, contains the oldest and most venerated holy pictures in Russia, as well as numerous relics of saints. The cathedral was built in 1475-79 by the Bolognese architect Fioraventi, in the Lombardo-Byzantine style, with Indian cupolas. The building has been restored several times after being pillaged or burned.

Sheep Lived Long, Though Staked.

When the sheep were mustered for shearing on a Nebraska farm one was found to be badly "staked." A piece of wood 2 1/2 feet long entered the shoulder blade and came out under the belly. The end of the stick was touching the ground and had been worn smooth by the continual contact. Obviously the accident had happened some time before, as the flesh at the entrance was healed up, though the underneath wound was a bit raw. Ten minutes after the stake was pulled out the animal died.

The GAME

By Grace E. Hall

Fate deals the cards—the spades, the clubs and hearts,
The diamonds—counting out the legal hand;
None may exchange, though, seeing, there departs
All hope of what we hoped to play—and planned.
Some hold but scattered suit, while others smile
O'er richer draw, which means that they shall win;
But Fate, unheeding, shuffles all the while.
Since every moment new games must begin.

The players take the cards that have been dealt,
Count carefully the points they may secure,
Bid up, oftentimes, though serious doubt be felt—
For in this game of chance no bet is sure;
Unnumbered souls are sickening day by day,
Because of tricks caught up by those expert,
Because another, though a mere chance play,
Won what they crave with never-ceasing hurt.

'ROUND THE STATE

The reunion of the Ninety-first (wild-west) division, to be held in San Francisco, Oct. 13 and 14,—two days before the national American Legion convention opens, plans to seat 7,000 veterans of the division at a dinner party in the auditorium on the evening of the thirteenth; the largest crowd that ever sat down to an indoor meal at one time in this part of the country.

George Ruble of Berkeley was chosen president of the California Retail Grocers and Merchants' Association at the Santa Cruz convention. George Shafer of Modesto, Gorman King of Red Bluff and Walter Tyre of Sacramento are vice-presidents; B. Connolly, San Francisco, secretary, and Felix Sermonet, Sacramento, treasurer.

Litigations are on between relatives over the possession of the Chateau Ricardo Vineyard, located in the western hills near San Jose. The estate is now in the possession of Francis Heney, who claims he bought the property at a forced sale to protect his land. He is charged with fraud by other interested relatives.

Cotton planters in the Imperial valley have delayed the beginning of picking because of a shortage of that class of laborers. The usual influx of Mexican labor has been diverted to Yuma as a result of attractive offers advertised there and the Imperial growers have had use for several hundred pickers.

Leaders in California's commercial life, representing the interior trade centers of Fresno, Oakland, Alameda, Berkeley, Richmond, Santa Rosa, Marysville, Ukiah, and many other districts will participate in the San Francisco Chamber of Commerce Trade extension tour to Hawaii, Oct. 17 to Nov. 6.

Discovery of a deposit of iron ore within twenty miles of San Diego is announced by J. A. Tregellas, a mining man of that city, who with several associates, has filed claims and is planning immediate development of the tract. The ore is rich in iron and will run thousands of tons, it is reported.

Burglars invaded ten Woodland homes in the early hours of a single morning and took money, jewelry and clothing from all of the places. Much of the clothing was recovered on vacant lots. Ben Ditcher reported firing on a man who attempted to steal his automobile.

Charles Barnhart, declared by officers to be the most daring alien smuggler in southern California, was arrested near Hemet with two Chinese concealed in his automobile. The chinks had been brought into the United States at Calexico and were being taken to San Francisco when stopped.

The total production of crude oil in California for August amounted to 26,440,005 barrels. Sixty-one wells were completed during the month with an initial daily production of 118,433. Ninety-five wells were completed in July.

Damages of \$25,000 are asked by Mrs. Susanna Eybel of Richmond from a dentist of that place for the death of her husband who died after swallowing a gold crown while the dentist was engaged in work on his teeth.

A son was born to Mrs. M. McSweeney of Oakland, aboard the Shasta Limited just as the train was entering Kennett, where a physician was taken aboard. They were removed to a hospital at Dunsmuir.

Los Angeles has inaugurated a definite effort to have the Pacific terminal of the U. S. airplane mail service removed from San Francisco to the southern metropolis.

Ted Mannen, Chowchilla war veteran and farmer, received fatal injuries when his automobile overturned after colliding with a passing machine.

Final returns from the mineral producers of California for 1922, compiled by the statistical division of the state mining bureau, shows the total value to have been \$245,183,826, a decrease of \$22,978,646 from the 1921 total of \$268,157,472. There were fifty-three different mineral substances, exclusive of a segregation of the various stones grouped under gems; and all of the fifty-eight counties of the state contributed to the list. The salient features of 1922 compared with the preceding year, were: The continued increase in petroleum yield, although of lower price per barrel; increases in copper, lead, natural gas, brick and tile, and crushed rock; and decrease in gold, silver, cement, and petroleum values. The net result was a decrease in the grand total of all groups of nearly \$23,000,000, as stated above. Petroleum accounted for a decrease of \$29,756,960 in total value, although there was an increase in quantity of approximately 26,000,000 barrels.

Sacramento police, in their search for the murderer of Dr. J. L. Arbogast and Harry E. Brown, have gathered evidence which they claim connects Ed Banta, now in custody, with the crimes. Arbogast and Brown were held up and murdered on lonely thoroughfares at different times, while accompanied by women friends, and Banta was picked from a line of prisoners by another hold-up victim, as the man who robbed him near the spot where Arbogast was slain.

Parole of Philip Valentine, who run down and injured Mrs. George Boyer of San Jose while seeking to escape arrest for driving while intoxicated, has brought a protest from the judge who presided at the trial and from the woman's husband. Valentine is being held at San Quentin while the authorities verify an offer of employment for him. Mrs. Boyer holds a judgment for \$52,985 against Valentine.

DISPOSITION OF ARSON CASE

In superior court, part 3, Judge Luce presiding, the jury in the case of R. J. Walsh, charged with burning on the night of May 7 a small house owned by Mrs. Martha Plummer and rented by King Clemons, a negro, brought in a verdict of second degree arson. Final disposition of the case will be made today. The trial of Daniel O'Connell on the same charge was also docketed for this week, both cases having been carried through several continuances, but has been postponed until next Monday morning.

America's Marvels NATURAL AND OTHERWISE

By T. T. Maxey

THE ROOSEVELT DAM

In the south-central part of Arizona a large area of fertile, sandy loam lying at an altitude of about 1,200 feet above sea level and well-suited for the production of grain, cotton, alfalfa, fruit and live stock, was unproductive because of the simple fact that the annual rainfall of from seven to nine inches was entirely too scant to admit of crop maturity.

The waters of the Salt and Verde rivers carry the drainage from some 12,250 square miles of territory. If this water could be properly stored and carefully spread over this great unproductive area during the "growing" season fabulous crop wealth would naturally result.

By the building of a tremendous dam a reservoir was formed which holds the water which formerly went to waste. This dam (Roosevelt) is 1,125 feet long on top and 280 feet high in the center, and contains 342,825 cubic yards of building material. The reservoir extends some 20 miles up stream and holds sufficient water to cover 1,365,000 acres one foot deep. To properly and efficiently handle such a herculean task as the storing and distribution of such a stupendous volume of water over such a broad area, it was necessary to construct and bring into use an intricate and far-reaching system of spillways, tunnels, hydraulic gates and something like 750 miles of canals.

Some idea of the success of this project can be glimpsed from the crop report for the year 1920. The irrigated area had been divided into 4,200 farms which boasted a population of 31,600 and contained eight towns which had forty-one schools and forty-five churches and housed 32,100 persons. These 4,200 farms yielded the following crops, in bushels: barley, 178,520; corn, 66,985; oats, 67,390; wheat, 96,285; sorghum grain, 22,388; beans, 1,490; potatoes, 11,700; 13,671,000 lbs of fruits; 28,465,000 lbs. of cotton, 100,936 tons of alfalfa hay and 42,700 tons of cotton seed. The farms on this project also contained 5,137 sheep; 8,692 hogs; 254,572 chickens, turkeys, geese, etc., and 13,819 hives of bees.

Thus the magic-like touch of the U. S. reclamation service "maketh the desert to blossom as the rose."

His life was gentle; and the elements so mix'd in him that Nature might stand up, and say to all the world, "This was a man!"—Julius Caesar.

MORE ABOUT FOOD

Prunes are a most wholesome fruit and should be used in countless ways.

As a breakfast fruit or served as a light dessert in most families this is the limit of variety.

Quick Prune Coffee Cake.—Beat well two eggs and add gradually one cupful of sugar. Sift two cupfuls of flour with two teaspoonfuls of baking powder and add six tablespoonfuls of melted fat and a teaspoonful of lemon extract. Beat to a smooth batter, pour into a buttered baking pan, cover with one cupful of pitted prunes cut into small pieces and bake in a moderate oven.

Prune Parfait.—Place in a saucepan one cupful of prune juice drained from cooked prunes, add one cupful of sugar, the juice and rind of an orange; cook until it makes a soft ball when dropped into cold water. Beat the whites of two eggs until stiff, pour the hot sirup gradually over the egg white, beating all the while until cool. Add one cupful of stewed, pitted, chopped prunes and fold in two cupfuls of cream whipped stiff. Turn into a wet mold, cover tightly and pack with two parts ice and salt. Unmold on a chilled plate and garnish with pitted prunes stuffed with marshmallows.

Prune and Orange Squares.—Beat the yolks of two eggs until light; beat into them gradually one cupful of sugar, add the stiffly beaten whites. Sift two teaspoonfuls of baking powder and add a tablespoonful of orange juice, a cupful of chopped prunes and one cupful of walnut meats. Mix all together and bake in a shallow pan half an hour in a slow oven. Cut in squares and serve with orange custard. Dates may be used in place of prunes.

Corn Fritters.—To a cupful or more of griddle cake batter left from breakfast add a cupful more or less of canned corn. Season well and fry in small cakes. Serve as a side dish or as a garnish to fried chicken.

PACIFIC BEACH GETS PERMIT TO CONSTRUCT BIG HIGHWAY SIGN

The city council early this week approved a petition from the Pacific Beach Community League for permission to construct a large sign across Garnett avenue near Cass street.

The council will insist that the supports of the sign be placed back even with the curbline, on either side of the street, which is 52 feet from curb to curb.

The sign will bear the words "Pacific Beach." It will be paid for by subscription—many residents of the suburb donating \$1 each.

HISTORY.

By LOCHIEL CAMERON, Grade 7-B

I am Hernando Cortes. I will tell you of the voyage I made to conquer Mexico. First, when I was a young man I learned horsemanship and the use of arms until at last I attracted the attention of the governor who made me magistrate. I did this because I wished to restore my family to its old position of influence and power. Soon after the governor made me commander of a fleet which was going on an expedition to conquer Mexico.

I had long wished for this opportunity, so I mortgaged my property and borrowed as much money as possible to finance the trip. I now felt myself a person of some consequence and for the first time I wore a bunch of feathers in my hat, a medal, and a gold necklace. I wore many other valuable clothes to improve my appearance.

I hurried my preparations and in the year of 1518 I set sail for Cuba, and from there to the coast of Mexico. As soon as my men were on shore I sank my ships. My men now had to fight or be defeated, killed, and maybe tortured. They were well armed so that they could defend themselves. We saw natives every few miles, and as they had gold and silver ornaments on their arms and legs, I had great trouble in keeping my men from snatching them. We had a battle with the natives, but we defeated them and made them pledge submission to Spain and the Catholic religion. I captured some to take with me as guides.

I soon heard of an Indian emperor Montezuma, who had riches untold. I then founded the city of Vera Cruz for a base of supplies. Although I had only a few men and horses, I had a great advantage because of the fear of the natives for the horses and cannon. Many natives joined my army in hopes of pillage from Mexico City. After marching for some time we came to the lake in the midst of which was the City of Mexico.

CALIFORNIA NEWS BRIEFS

Long Beach will be the convention city of the Elks, next year.

Santa Barbara gets the next convention of the federation of labor.

With twenty miles of street paving, Lodi claims the world's record for cities of its size.

The body of an unidentified man was found on the desert six miles south of Needles.

Three cars of trout fry have been distributed in the streams of El Dorado county this year.

Defective wiring caused a fire that gutted the Fremont Park Presbyterian church at Sacramento.

Forty war ships will dock in San Francisco bay during the American Legion convention, Oct. 15 to 19.

Emperor grape prices for fancy pack of reds for storage purposes have been set at \$3.50 per drum.

Eight oil wells were started in the southwest section of the Torrence field during the week ending Sept. 22.

W. J. Hales, retired capitalist of Sonora, died of a broken back which he received in an automobile accident.

Santa Barbara's police chief has issued orders forbidding any member of the force to join the Ku Klux Klan, on penalty of dismissal.

A consignment of California hogs for Manchuria, the first ever to leave the state for that destination, went out from San Francisco, last week.

Former receiver of the United States Land Office, W. A. Newcum of Sacramento, has been in a serious condition from a stroke of paralysis.

The Wilshire company will drill for oil in the territory around Maywood. The company is leasing between 500 and 700 acres of land in that section.

Orland Wedgewood, of unsound mind, shot and killed his brother Glenn at Santa Rosa while under the hallucination that Glenn was assaulting his father.

An automobile driven by a Yreka business man, plunged over a twenty-foot embankment near the Oregon line and the four occupants escaped with slight injuries.

Dr. Henry Suzzalo, president of the University of Washington, will address the Northern California Teachers' Institute, which convenes at Sacramento, next month.

A resolution pledging the California Federation of Labor to ask the United States government to recognize Soviet Russia was defeated overwhelmingly at the federation's annual convention at Stockton.

Failure of the Amadore county supervisors to vote money for the county's chamber of commerce work brought about the resignation of the president and secretary of the chamber, in protest.

Tulare county officials believe that with the capture of one Gerera, a Mexican, they have the ringleader of a gang of bad check artists. About \$6,000 worth of such paper has been put over in that vicinity.

A brooder house fire on the ranch of J. Verdi near Petaluma burned 2,000 5-weeks-old chickens. The brooder house was one of the largest in the county, and Mr. Verdi suffered a similar loss a few years ago.

Interest in the Deadman Flat mines, near Grass Valley, is stimulated by new discoveries. Some of the operators are predicting that there may be a duplication of the records of the famous main Grass Valley field.

A predicted 60 per cent loss of the \$700,000 bean crop of the San Luis Obispo vicinity, from recent heavy rains, was averted by an immediate return of warm, sunny weather, enabling the growers to turn their crop for drying.

The Jackson Furniture company of Oakland has set a record in business circles by cancelling the indebtedness of fire victims and permitting them to purchase new furniture without preliminary payments and on a liberal payment plan.

Shasta county prison official held "open house" for inmates, last week, when rain made the jail untenable; three were given discharges and others released on parole until uncompleted repairs could be finished to shut out the elements.

John Lewis, 65, a native of Sacramento, committed suicide in Chicago by jumping from a seventh floor window of a Lake Shore apartment hotel. He was engaged in real estate brokerage in Chicago and was in ill health. A wife and two sons survive.

While Sacramento's fire trucks were screaming their way in answer to an alarm, searchers found Prince Bonaparte, now reduced to the estate of a plow horse, standing before the dilapidated building which had housed the engine he pulled ten years ago.

Louis Kunde, a former vegetable peddler of Santa Rosa, who was killed in an automobile accident while on a visit to his old home in Germany, last year, left an estate valued at \$443,760, according to an appraisal filed in Superior court of Sonoma county.

Two members of the engine crew of the oil tanker Alden Anderson were killed and two others injured by an explosion in the pump room as the vessel was leaving the dry-docks at Oakland. The dead are George McDonald and George Hadley, both of Oakland.
